

Training Unit Requirements in Colorado

Regulation 100.14 Professional Development – Training Unit Requirements for Renewal of Certification

100.14.1 In addition to the other requirements of this regulation, all certified operators must earn the appropriate number of training units, as specified in this section, before the operator's certificate will be renewed.

(a) At least fifty percent (50%) of the training units for certification renewal must be for courses approved for credit in the specific field of the certificate being renewed.

(b) Up to fifty percent (50%) of the training units for certification renewal may come from courses approved for credit in a field other than that of the certification being renewed, including supplemental training courses.

(c) The maximum number of training units from a specific course that may be credited toward the renewal of a single certification is the training unit equivalent of the actual number of approved hours in the course.

(d) If applicable, the training units from one course may be applied toward the renewal of more than one certification.

100.14.2 Table – Training Unit Requirements for Operator Certification Renewal

Operator Class	Training Unit Requirement	
	Training Units	Hours
Class T	1.2	12
Class D or Class 1	1.2	12
Class S	1.8	18
Class C or Class 2	1.8	18
Class B or Class 3	2.4	24
Class A or Class 4	3.0	30

Note: 1 hour = 0.1 TUs

Note: Certificates must be renewed once every three years. The training units shown above are per license renewal period, NOT per year.

Note: Water and Wastewater Treatment Certificates are Classes D, C, B, and A. Water Distribution and Collection Systems Certificates are Classes 1, 2, 3, and 4. A Class S Certification is a Small Water or Small Wastewater Systems and is only valid for systems serving fewer than 3,300 people. A Class T Certification is for transient, non-community public water systems using only groundwater (wells) and serving fewer than 100 people.
