

## WAT-007 MRT Drinking Water Regulatory Course

This course satisfies the minimum regulatory training requirement for Colorado drinking water treatment and distribution system operators.

This course may be completed at no cost for training units through the Indigo Water Group learning management system (LMS). If you already have an iSpring training account with Indigo Water Group, simply log into your training account and look for the MRT course.

If you do not have an iSpring training account, please visit <https://www.indigowatergroup.com> and look for the “Create an Account” button near the bottom of the home web page.
